PROFESSIONAL SUMMARY

Computer Science student with software engineering training and hands-on experience developing websites, building REST APIs and providing ICT support. Works with JavaScript, React, Python and Flask, with additional experience in digital design and documentation. Combines practical development skills with graphic design, commercial production and office technology support. Open to internships, freelance projects and opportunities to learn with a collaborative team.

TECHNICAL SKILLS

Development: JavaScript, React.js, Python, Flask, REST APIs

Databases and tools: MySQL, SQLite, SQLAlchemy, Git, GitHub, Vercel, Netlify

ICT and digital tools: Hardware and software troubleshooting, software installation, basic networking, Microsoft Office, Google Workspace

Design: Figma, Canva, Adobe Photoshop, Illustrator, social media graphics

EDUCATION AND TRAINING

Level 6 Computer Science | January 2026 - Present

Kericho Township Technical and Vocational College | In progress

Professional Certificate in Software Engineering and Data Analytics | 2024

Moringa School, Nairobi | Training in frontend development, backend development and data analysis

Graphics Design Grade 1 | 2026

National Industrial Training Authority (NITA) | Recognition of Prior Learning

RELEVANT EXPERIENCE

Freelance Software Developer and Digital Designer | Remote, Part-time

2024 - Present

- Develop responsive websites and landing pages using JavaScript, React and Python Flask.
- Implement REST APIs and backend functionality; deploy and maintain projects with GitHub, Vercel and Netlify.

Graphic Designer, ICT Support and Office Administrator | Silver Ark Investments

Kericho | November 2023 - October 2026

- Provided first-line ICT support by troubleshooting laptops, printers and office software.
- Prepared reports, maintained digital records and tracked office inventory using spreadsheets and cloud tools.
- Created campaign graphics and supported marketing teams with digital content and basic video editing.

Graphic Designer and Production Technician | Silver Ark Designs

Kericho | January 2022 - October 2023

- Designed print and social media materials, prepared production-ready artwork and checked output quality.
- Operated commercial printing equipment and performed basic troubleshooting and maintenance.

Data Annotation Specialist | Samasource Kenya

2021 - 2022

- Processed and cross-checked data to support dataset accuracy and reliability.
